

## About Me

A simple person who want to push through to the limit " i will never do that " with fixed mindset that i was not engineering student.

After realize that, my background degree is not fit with my interest at all, and want to try something new that i have never learned before.

Then coding is an answer which can improve this world to not stop orbit. I think It would be good if i can be a small part of this industry. I finally found it and i will dedicate for it.
